

## Cubiks achieves ISO 27001 certification

- ISO 27001 covers high standards in information security and the management of information
- People can trust that their data is being managed securely and professionally by Cubiks.

Global people assessment consultancy Cubiks has achieved certification to ISO 27001:2013 for its information security management system. Achieving this internationally recognised certification, Cubiks has shown its dedication to excellent standards in information management and security, its commitment to best practice and its focus on continuous improvement.

BSI, the business standards company, provides a recognised framework for information security management, which helps companies ensure that they consistently meet high standards when it comes to using and storing information. In Cubiks' case, this certification demonstrates the company's continued effort to work to BSI's guidance for managing client data.

**Martin Smith**, Cubiks CEO said:

*"Certification to ISO 27001 reflects our dedication to ensuring data is managed securely for all our clients, participants and employees around the world. We know that information security is a major concern for employers and individuals alike, and this certification demonstrates that we are serious about keeping personal data safe. Our robust framework for managing information is now certified as meeting exacting internationally recognised standards, reinforcing the fact that Cubiks is a talent assessment partner that people can trust."*

**Toni Allen**, UK Head of Client Propositions, BSI added:

*"It's vital that organisations can demonstrate that they are safeguarding sensitive information in order to gain the trust of their customers. By achieving ISO 27001, Cubiks has demonstrated that it has a robust information security management system in place and is committed to ensuring information is well managed."*

Organisations working with Cubiks can now be even more confident that their information is safe, further building on the solid foundation of trust that has long been at the centre of all Cubiks' international partnerships.
